Service Hours Report

As a part of our servant-leadership focus at Freedom Christian Academy, we encourage service among our students both through school arranged activities and through outside activities where students choose to give of themselves without school assignment. During high school, I can record these hours that will appear on their transcript. This is a tool to be used for college admissions and scholarship applications. To do this, the following information is required. If you need clarification or have any questions, please do not hesitate to contact me.

Serving Christ,
T.W. Webb
